Ants

Most ants live together in a big 'house' called a **colony**. There are queen ants, worker ants and soldier ants. There are more than 12,000 types of ant in the world. Some ants are dangerous.

An ant can lift 20 times its own body weight. If you were an ant, you could pick up a car.

There are over 100,000 types of flies in the world. Flies only have two wings. Flies are not dangerous like lions or sharks, but they are dangerous because they carry **disease**. Camels

There are two types of camels: the Arabian camel has one hump and the Asian camel has two humps. Camels can be many colours from white to brown to black. Camels like to live together in big groups. They are intelligent animals.

A camel's body is good for living in the desert. Why? They have big soft feet to walk on sand. They keep their fat in humps to help them stay cool. They have small, hairy ears and thick eyelashes to protect them from the sand. Camels can close their noses too!

Camels can drink a lot of water when they need to – a thirsty camel can drink about 135 litres of water in one go!

This is a postcard from Baghdad!
How are you? I'm with my mum,
dad and sister. Yesterday was
amazing! First, we went on the
big wheel in Al-Zawraa Park.
You can see it in the picture.
It is very big. It was fun being
high up in the sky! Today, we
are going on a boat on the River
Tigris. See you soon.

My favourite place!

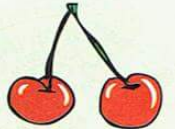

The city is my favourite place,
There are lots of things to do.

There are shops with clothes and shoes and toys,
There are butchers and bakeries too.

There are lots of shops on Blue Street,
Where you can buy books and toys.

There are even more shops on Red Street,
For mums, dads, girls and boys.

I like going to the market,
And I hope we can buy cherries.

I like to look at the bread and cakes,
Maybe we'll buy strawberries.

But my favourite place of all
Is where I go at the weekends.

It's near my house and near my school
And I go there with my friends!
